DETAILED ACTION

Allowable Subject Matter

1. Claims 1-19 are allowed.
2. The following is an examiner's statement of reasons for allowance:

None of the prior art of record teaches an on-line gloss meter comprising a light emitter, a light collector, and a guide element associated with the receiver transport path for directing the receiver into a predetermined location relative to the beam of light, and a control unit for control operating parameters of the image forming apparatus to control, on-line, gloss and/or density.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Richards, Hauptmann, and Bartscher et al teach other examples for controlling gloss process in image forming apparatus.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hoang Ngo whose telephone number is (571) 272-2138. The examiner can normally be reached on 6:00am - 2:30pm.
